

## 新托福 iBT 口语黄金 80 题

1. Describe a book that you believe is the most useful to you. Please explain the reason and include specific examples and details in your explanation. (最崇拜的一个人)

**“A man can be destroyed but not defeated.” Right! *The Old Man and the Sea* by Hemingway is the most important book for me.**

**When I was in the abyss of despair for the career blow, I met this book in the library and was immediately fascinated by it because this book gave me insights into the concept of failure which means to get up again and never stop chasing one's dream.**

**I had also learned what is hero—a hero is the one who dares to face the frustration, who dares to challenge the difficult, who dares to overcome his own, and who eventually conquers the defeat.**

**The book helps me to go regain my courage for future, and finally I went out of the nightmares and then got a booming development in my career.**

**So, *the Old man and Sea* is definitely the most important book for me.**

2. Which of the following statements do you agree with? Please give specific reasons for your opinion. Some believe that TV programs have a positive influence on modern society. Others, however, think that the influence of TV programs is negative.

**Personally speaking, television has more positive effects towards the modern society than its negative sides. Firstly, the television has significantly made our world smaller. Through news broadcasting in the television, we can be informed of what is happening in all around the world even without stepping out our living room. For example, my classmates and I watched Obama's inauguration thousands of miles away from American. Without television, this would not able to come true. Secondly, watching television with family members after supper is a good way to relax after a day's hard work. And it is also a good way to enhance the affections between family members. So, I think that television has more positive effects than its negative sides.**

3. Describe the most important decision that you made in your life. (你最喜欢的地方、城市)

**The most important decision that I have made in my life is to study in Nanjing. You know, my hometown is very small and remote, but Nanjing is a cosmopolitan city. It is in this city that I gained many opportunities to develop myself.**

**For one thing, being elected the president of Student Union, I was able to cooperate with student leaders from the other colleges in the city.**

**For another, as the volunteer leader for the 4th Session of the World Urban Forum held in Nanjing last year. I interviewed people from all over the world, such as the officers from Asian Development Bank. And this enriched my experience.**

**All of these add to my love of this city. So the decision to study in Nanjing is the most important I have ever made.**

4. Do you think the high school should teach music and art as other basic science?

**Music and art should be important components of the school curriculum because they have many uses besides recreation.**

**To study music is to study the basics. Through its study, students come into contact with other basic areas of the curriculum. Such as math, science, social studies, languages, and physical education. Apart from that, music, like reading, writing and speaking, conveys thoughts, ideas and feelings. It also provides an avenue for developing self-expression and creativity.**

**On the other hand, art education in itself has tremendous value. Learning about the history, sharing ideas and knowledge, is always a good thing.**

**Music and art, therefore, as important parts of our lives, should be taught in high school.**

5. 空闲时间用来做什么? ( )

**I usually do three kinds of things to spend my spare time.**

**The first is reading. I love reading, especially in a silent environment such as library. Through reading, I can travel through from prehistory to the future and from North Pole to South Pole. It's so amazing!**

**The second is doing sports. Every morning, I jog 2 kilometers, and every weekend, I swim 1 kilometer. This can keep me healthy and energetic.**

**And the last one is to do voluntary work in the Stray dogs rescue organization in my city. We help to raise enough money to purchase food and medicine as well as to pay rent for the house that we hired as a shelter for the poor dogs.**

**These are what I do when I am free, they are simple but meaningful.**

6. Some people think that it's necessary to prohibit people from using phone calls in some places. Others believe that it's inconvenient if phone calls are forbidden in some places. Which opinion do you prefer? Explain you're your statement should include specific examples and details.

**I strongly agree with the opinion that cell-phone usage should be banned in some places like concert halls, movie theaters or in some situations like when you are driving in cars or taking a subway, when you are in flight, in classes or meetings.**

**For one thing, it has become social etiquette. The cell phone user should know when and where to pick up the cell phone and talk. Though people have personal right to use their phone, the others are not supposed to be involved in the unnecessary disturbance.**

**For another, cell phone usage can harm a person's health. Brain cancer rates in the US have risen since cell phones were introduced, leading some people to wonder if cell phone usage is the reason for the increase.**

**In recognition of those above, there should be some kind of regulations helping with this problem. This way people will be well aware.**

7. Describe a celebration or moment which has made a deep impression on you. Please explain the impression and include specific examples and details in your explanation. (最喜欢的时光)

There is no doubt that the 2008 Beijing Olympic Games Opening Ceremony is the most impressive moment in my life by far. As a lucky one, I have a ticket of the grand meeting so that I can enjoy it on-site! How can I forget it! The ceremony began officially on Friday 8th August 2008 at 8pm in front of a crowd of 90,000 eager spectators in the Bird's Nest stadium. Things got off to a bang with an initial firework display which lit up Beijing's skyline, followed by a total of 2,008 energetic drummers beating a countdown. Then the crowd was treated to an amazing sequence of intricately-choreographed, beautifully-lit vignettes which took us through 5,000 years of Chinese history and culture. After these performances, Olympic founders Greece led the 204 competing nations into the stadium. Finally, the cauldron was lit by a jet of fire from Chinese Olympic hero Li Ning, who had been hoisted up to the roof of the stadium on wires. And then the Olympic began! It's so amazing!

8. Which one acts more influence on you newspaper, TV or teachers? I definitely think that it is TV that influences me most among the three.

Firstly, TV brings us the latest news from all over the world and all kinds of knowledge in every realm. This helps to broaden our horizons. I could still remember my first chemistry class is not in the school but on the television, which led to a tiny accident in my kitchen. Ha-ha, luckily, nobody was hurt.

Secondly, TV Holds fashion trends. Whenever a star wears eye-catching attire in a TV show, it wouldn't be long before this style become popular. It is same for a singer. If the singer's MTV could be recommended by a program host, his/her album will probably become a best seller. And I will buy one copy, too.

So, it is the TV that acts more influence on me.

9. Describe a social or politics celebration events in your culture. (最喜欢的时光)

Speaking of social celebration in my culture, there is one day of the year that is second to none, the Chinese New Year, which is also called the Spring Festival by most Chinese People.

Even if you don't like most festive events, you still cannot resist the charm of a family reunion dinner which marks the defining feature of the Spring Festival.

If you ever had the similar experience I came through in celebrating the day with folks from four generations, I think you would agree with me that the festive and auspicious feeling would haunt you from time to time, and part of that, of course, comes from the longstanding tradition of our culture. Family members make toasts for each other in order to wish for joy, peace, health and fortune for the next year.

What a wonderful festival!

10. 政府是否应该资助建博物馆和剧院。说出你的观点和理由。

In my point of view, government should provide fund to build museums and theaters because they serve as exhibition centers for people to know about the history and culture of the country.

The range of museums is fantastic—there are museums of ancient history and archaeology, of natural history and even museums for such things as transportation and crime! And because the museums often hold new exhibitions, there is always something different to see.

Theaters offer people a big place to enjoy a variety of operas and plays of different regions. Meanwhile, the building of the museums and theaters will enhance the cultural exchange between countries.

They are also one of the contributing factors that promote the national economy.

That's why I think it's a good idea for government to help with the building of museums and theaters.

11. 说出你所居住的城市中你最喜欢的地方，给出原因。

Xuanwu Park is the place that I love most in my city. I usually go there when I have the time and opportunity.

I can go for a stroll in the park to relax. The park has many trees, and lots of winding paths, where I can wander listlessly and contemplate my own thoughts or admire the various stages of nature.

Sometimes I just like to feel the breeze on my face and savor its coolness. It gives me a sense of freedom. It also has a lake on which I can go boating.

I often go to the park with my friends on weekends. We usually play football on the beach of the lake. And we'll have a picnic or a barbeque if we stay there for the whole day.

It's such a good place that I love it most.

My favorite place in my city is the New Oriental Restaurant.

It is said and widely accepted that if you have not been to the New Oriental Restaurant, you simply can't say you have been to our city.

The restaurant is the largest restaurant in our city and it provides all kinds of food, from sea food to curry, and from sushi to barbeque. Though I am a picky gourmet, the New Oriental can make me satisfy.

Besides, the New Oriental is accessible by several buses and subway lines and it hence can be reached within half an hour from my home, even during rush hour.

The price of the New Oriental is very reasonable and the waiters there provide well rounded service. I love the NO.

12. 你和朋友在一起的时候喜欢去哪个地方？为什么？

**My favorite place to have fun with my friends in my city is the New Oriental Restaurant.**

**It is said and widely accepted that if you have not been to the New Oriental Restaurant, you simply can't say you have been to our city.**

**The restaurant is the largest one in our city and it provides all kinds of food, from sea food to curry, and from sushi to barbeque. Though my friends and I are all picky gourmets, the New Oriental can make us satisfy.**

**Besides, it has a charming setting, with pictures on the walls, creating an excellent place to both gathering and enjoying food.**

**The price of the New Oriental is very reasonable and the waiters there provide well rounded service.**

**So, my friends and I prefer going to N O R when we get together.**

13. 你是喜欢自己在家里吃还是去外面餐馆吃？为什么？

**Some people prefer eating out at a restaurant because they can eat a variety of delicious food in restaurants. However, I think that preparing food and eating home would be better for the reasons below.**

**First, home-cooked meals are always cheaper and cleaner. I don't have to pay a lot for the food in a restaurant or worry about the sanitary standard.**

**Second, eating at home allows for a free choice of food because each person has a private taste.**

**Third, eating at home is one of the best ways to enhance the relationship inside the family. A table is a good place where family members could talk about their happy day.**

**To conclude, I prefer eating at home to eating out for the reasons that it not only cheaper and more comfortable, but also important to my family.**

14. 你通常喜欢去什么 park 或者 public area。

**Xuanwu Park**

15. 喜欢到大城市读书还是小城市读书。

**I definitely prefer to study in a big city. Taking Nanjing for example, it is a cosmopolitan city and my college is there.**

**Firstly, NJ has many universities, and as the president of Student Union of my college, I can cooperate with student leaders from the other universities in the city.**

**Secondly, a big city indicates that it can offer more opportunities for the students studying there. Last year Nanjing held the 4th Session of the World Urban Forum. And as the leader of volunteers of my college, I had many deep communications with people from all over the world, such as the officers from Asian Development Bank. And this enriched my experience.**

**So that's why I think big city is more attractive for me to study in.**

## 16. 杂志, 小说, 诗歌, 喜欢哪个

I prefer magazines to fictions or poems, especially monthly magazines. They are good in some way and fill current trends and demands in different ways.

My definition of a good magazine is one that doesn't just stick to the same writers and trends. The presentation, theme, and subjects should vary to grab the interest of readers.

And a magazine should be a place where new writers can blossom. I would like to see more magazine stories and features on the new generation of writers and I hope to read more about new trends and new ideas.

I buy two magazines regularly--- *Scientific American* and *Business*, because they are worth reading for their scientific news and new developments in the business.

## 17. 喜欢一个人住还是和室友住

Some students tend to live alone, while others may want to share their rooms with their roommates. Which way of living do you think is better for students and why?

I prefer to share a room with friends who I am acquainted with because of security problem. Besides, living with friends can reduce the rent and ease my economic burden.

Take myself as an example, as there are more and more burglary cases and break-in house robbery reported on newspapers. I am worried about this problem. One of my friends who live alone reported to me that her apartment was broken in, and she lost some very valuable belongings. That's how I learn that no security system or measures are 100% watertight.

Besides, renting an apartment isn't cheap. So I rent one with my friends, and now I'm saving three hundred dollars each month.

To sum up, security and finance issues are the reasons why I prefer to live with friends.

## 18. 和朋友在一起, 喜欢在 restaurant, café 还是在家

I definitely prefer to eat out in a restaurant when I'm together with my friends. As both of my parents have retired from work, they stay at home all day long. So it will not be convenient for we friends have a close chat including some secrets of us at home. More importantly, eating out at restaurant or café means we do not have to care about shopping, cooking, or cleaning up. And then we can enjoy our time more relaxed.

19. Some believe that computer have improved our lives while others think computers have caused a variety of problems. Which do you prefer? Please give your opinion and include specific examples and details.

**Well, I think computer does have more positive effects towards our lives than its negative sides.**

**The computer makes a world-wide connection possible so that different people can share information and communicate with each other. It is too hard to image a life without computers.**

**In addition, computer has also pushed the development of science and technology. Besides the fact that its amazing calculating ability has been applied in the most high-tec fields, many softwares are developed to help research in other disciplines.**

**Besides, it can provide people with entertainment, such as watching movies, listening to music, and playing computer games.**

**So, that's why I think computer does have improved our lives.**

20. 老师的 characters

**In my view, a good teacher should have different characteristics.**

**First, good teachers should be faithful and dedicated to the job. If teachers are faithful to the job, then they will never cheat and will be impartial so that students will respect them. If teachers are dedicated towards their work, then they will teach with their hearts.**

**Another most important characteristic of a good teacher is patience. Teachers should never lose their patience in class when students keep on asking questions. A teacher should explain each aspect of the topic in the easiest way.**

**Most of all, good teachers should update their knowledge 'cause further learning can make a good teacher re-discover the beauty of the teaching profession.**

21. Some people prefer to work in the offices. Others would like to take the work to home. Which do you prefer and explain why.

**I rather prefer to work in an office.**

**Firstly, although working at home may be comfortable, it's difficult for me to be fully-devoted to work. Maybe I'll want to watch TV, surf the internet or even want to have a sleep during the work time. So it isn't efficient to work at home.**

**Moreover, it's more convenient to communicate with your co-workers or boss when you work in an office, thus you can get the assignment more directly and solve problems by negotiating with other employees, which helps you do better and learn faster.**

**Last but not least, it is working with my workmates that makes I feel energetic and more meaningful. Being with them makes me feel happy.**

**So I prefer the traditional way to work in an office than to take the work to home.**

22. 说一个你敬佩的人的好性格（老师）

23. 大学是应该向所有人开放还是只对一部分学生开放 (free)

**I'm not so optimistic about university for all.**

**For one thing, it can cause tension on budget and resources. If higher education is opened for all, it will definitely lead to a boost in enrollment, in turn more money, more facilities and more faculties need be placed to cope with the increase, which is very likely to result in great pressure in funding and resources.**

**In addition, university for all may go against the selective purpose of higher education. More people going to college means less value of the degree. This will not help to the student's future job hunting.**

**So, for these reasons, I don't support university for all.**

24. Whether parents should lead their children to watch TV or the children should choose

25. The most efficient transportation in your country.

- ① be free of traffic problem and other factors ② faster than bus and automobiles ③ frequently and punctually**

**The most efficient transportation in our country is subway.**

**First of all, it can be free from traffic problems and many other factors that may influence the normal operation of transportation, such as raining and snowing.**

**In addition, it runs much faster than bus or automobiles even in rush hours and will never stop for a traffic jam. Just think about the bad experience when you are trapped by traffic jam, you will probably take the sub way when you have to go out in rush hours.**

**Besides, the subway trains come frequently and punctually, thus make it easier for passengers to make schedule.**

**All these advantages make subway the most efficient transportation.**

27. attend college 是否比不读 college 容易 successful in career , why?

**In my opinion, for general people, attending college is very important to help them gain success in career.**

**Nowadays, attending college is not only a process of accumulating knowledge, but also the recognition of your abilities by the society. With a college degree, you'll get more chances for future career success.**

**Furthermore, attending college will make you respected by the society and give you more opportunities of promotion.**

**Last but not least, attending college can allow you make friends with many promoting young people just like you. And they will be our precious connections in your future career.**

**Although there are some exceptions such as Bill Gates, I believe attending college will prepare you much better for future.**

**28.Characteristics of friends;**

**I think what makes a good friend is someone who is honest, supportive, and has a good sense of humor.**

**I just look for someone who's honest to me no matter what. He should not tell stories behind my back; he should tell me my short-comings at my mouth, but never praises me in front of me.**

**It is a well known saying that "A FRIEND IN NEED IS A FRIEND INDEED." Therefore, a friend should stand by you in the hour of any sort of need. I just think that a good friend won't leave me if I'm in trouble. They can be my friends in sunshine and in shade, care for me even when the times are bad and even more when the times are great.**

**Also, I'd love to spend more time with someone who can make me laugh and is fun to be around.**

**29. Someone suggests school to cut the Recycling**

**I tend to disagree with cutting the recycling in school. Firstly, recycling can remind students of the importance of environmental protection. With a recycling system, students will discard garbage into the special recycling garbage boxes instead of throw them away randomly in campus. In addition, school can employ workers to deal with the garbage regularly, it can also provide a job chance for people with low-income. So for these two reasons, I support that the recycling in school should continue.**

**30. 你是愿意当 leader 还是当 follower**

**I definitely prefer to be a leader, because I want to implement my dream and I think I can meet the qualities required for a good leader.**

**First of all, a good leader should have the ability of team building, and I believe that I can help each individual in the team to perform their very best due to my excellent communicating skills.**

**Furthermore, the experience of being a leader will make me more mature and capable, because I will learn more from the process of planning, organizing and solving unexpected events.**

**Last but not least, being a leader can build up good relationships with many people, and this can be tremendous beneficial in the future.**

**So I prefer the position of a leader to a follower as the reasons mentioned above.**

31. Which one do you think is better to help do research, internet or academic books?

Actually, both of internet and academic books are helpful in doing research. But nowadays I think internet is much better.

Firstly, internet contains such a tremendous amount of information that academic books can never compare with. You may even raise a question about a topic and ask for help on the internet.

Furthermore, it's more efficient and convenient to use the internet; all you need is a computer. On the opposite, carrying books around here and there can be very heavy.

Last but not least, the publication of academic books needs a long time. Meanwhile, you can get the information in the internet even if it had just happened one hour ago.

So I'd like to search online.

32. 人是被电视，报纸，广播上的信息影响得多，还是家人朋友得影响多

I think I learn more from people rather than media. I'll take my mother as an example.

When life seems hopeless, she is always there to help me every step of the way and she maintains everything will be fine unless I give up. I'm encouraged not only by her inspiring words but also by her action. By taking action, she has never been overwhelmed by pressure, adversity and even danger.

Also when I feel blue sometimes, I would turn to my classmates or friends for cheering up and comfort. While, media like TV or Internet can only equip me with knowledge and information, they are incapable of giving me spiritual satisfaction. So I learn about life, how to stay strong more from people around me than from the media.

Well, in my opinion, it is my family members and friends who influence me most.

33. 理想的职业（老师）

If I can choose a career freely, I would definitely choose to be a teacher like Ms. Xing---my college teacher who taught me English.

Her class was quite different from the other teachers. In her class we were not expected to sit there and listen. We had to get more involved in the class activities, like discussions, comments or debates sometimes. Our creativity and imagination were developed greatly through the active participation.

On the other hand, she let us think more about life by sharing her experiences and more importantly, she taught me how to live on my own.

I was greatly influenced for not only did she give me knowledge, but also she gave me courage and confidence as well.

So, I just want to be a teacher like her.

34. Take a long vacation or several short vacations in a year?

I'd like to take a long vacation rather than having several short ones in a year, because a long vacation enables me to make bigger plans for recreation.

Firstly, a long vacation will enable me to plan a trip to another city, or even foreign country. I always dreamed to visit the Disney Land in Hong Kong for years, but my work is too busy to have a holiday. So, a long vacation will make this dream come true.

Secondly, I can return to my hometown to see my parents. It's especially important for people who work far away from home to have a longer vacation, so that they can stay longer with their family.

So, for the above reasons, I like to take a long vacation for bigger plans.

35. What do you think are the characteristics of a good parent?

In my view, a good parent should have different characteristics.

First, a most important characteristic of a good parent is patience. As far as I can see, good parents all distinguish themselves in treating their child patiently with an open mind. It often takes many efforts to teach the kids about right and wrong. Sometimes when the kids get very radical, the parent needs to be patient enough to bring them back to the track.

In addition, a good parent is supportive enough when the child raises a reasonable request. They should also trust the kids to make their own decisions, like how to spend their pocket money or which study group to join.

Such characteristics can one make a good parent.

36. Do you prefer to study alone on work assignment from class or to study in group?

Well, in my opinion, I would prefer to study in a group on work assignment from class.

Working in a group means I will have partners to cooperate with. The work will be separated into several parts and each of us is only responsible for our own part, and that will decrease our workload and increase the efficiency.

Besides, when I confront difficulties while studying, I can make brainstorming with my partners. By this way, excellent solutions may probably be carried out, and everybody will benefit from the brainstorming.

So that's why I prefer to be in a group.

37. 你的目标是什么 (English Teacher)

To tell you the truth, my aim is to be a journalist as my future career. And I have partly achieved it. You know what, I have dreamed to be a journalist since I was still in the middle school. And then I chose journalism as my major in university though my parents strongly opposed to that. During my studies in the university, I worked hard and practiced as much as I could. Yesterday afternoon, I received a phone call. It was from China Daily which is one of the most famous newspaper

**in my country . They provided me an offer to be a journalist in their newspaper!**

38. 描述一次 challenging experience, 以及如何解决这个 challenge

**I once had a tough experience last semester when I was invited to show my dance with my friends in a large-scale celebration evening.**

**It was challenging because we had only less than two weeks for preparation. Even worse, it was the end of the term and we were all busy with our final exams.**

**In such a short time, as a leader, I investigated new dancing actions after my work during the daytime and taught other members every night. We taught and learned together and encouraged each other when we were frustrated.**

**Finally, we had achieved a fantastic performance. And I have to admit this experience, though challenging, was a valuable practice.**

39. 应该选择工作好找的专业还是应该选择自己感兴趣的专业

**These two aspects of choosing a major both have their merits, but I still think choosing a major out of personal interest is a better idea.**

**To begin with, interest is the best teacher. Only when people show great interest in that particular area, they can do well in their academic career.**

**In addition, interest leads to involvement and involvement leads to enthusiasm, which is very important for a student who's pursuing a better future.**

**What's more, long-term success depends on performance out of vital interest. Interest in the subject encourages them to take an optimistic view-point and continued action to accomplish their goal.**

**In closing, I agree with the idea of interest being the most important consideration of choosing a subject.**

40. 喜欢看那种电影, 为什么:Comedy, drama...

**I'd say I like comedy the best, because it's so amusing, isn't it?**

**First of all, it can give me a break from tedious work; you don't need to think much about the deep meaning, because it's not as serious as drama.**

**Furthermore, it can always make you laugh and get rid of your sadness; it will empower you with good mood and energy for future work. All you need is to lean back and enjoy the shows.**

**Last but not least, comedy is always a good topic when chatting with my workmates. It's a great fun to talk about comedy stars and lines in the movie.**

**So I'd like to watch a comedy.**

**41. What will you do to relax yourself?(Free time/ park)**

42. Is it important for students to attend class regularly or study by oneself? (老师交流、集体讨论)

**I agree that students should attend class regularly.**

**Through two-way discussion, the teacher is able to know what the difficult parts are for the students and then easily help them solve the problems. Likewise, the students can have more opportunity to communicate with the teacher and report their difficulties in time. Thus, both teaching and learning can be effective.**

**Meanwhile, the students can get a better understanding of teamwork and thus enhance their friendship.**

**Most of all, the interactive class can achieve a better and more harmonious study atmosphere. This, in turn, would promote the efficiency.**

**That's why I think attending class is a good idea for students.**

43. Describe an enjoyable event in your childhood

**An enjoyable event that took place in my childhood was when I got my first dog--- Little.**

**I was ten and had been pestering my parents for a dog for years. One day I came home from school, my parents said they had a surprise for me and it was waiting for me in my room. I ran up to my room and threw open the door. I found a tiny puppy with a red bow around his neck and sleeping at the foot of my bed.**

**We became good friends forever. And for the rest of his life, he slept on the exact same spot at the end of my bed every night.**

**That was a great happy event in my childhood.**

44. 描述一个你参加过的学校

**The school I'd like to talk about is Nanjing New Oriental School where I took my TOEFL course.**

**What I like about the school is that I can meet almost the best teachers in the country. They are so talented, eloquent, knowledgeable and humorous that I don't feel any bored in class. Every class passes very quickly.**

**One better thing about the school is that I can meet people from different parts of the country and make friends with them. We have a lot in common, sharing the same passion, the same stage, even the same learning difficulties which we encounter and then discuss and finally work out together.**

**Actually there's a lot to say about my school, but the points above are what I mainly want to cover.**

45. 学校应不应该在普通课程中加入 Sport courses?

**From my point of view, sports courses form an essential part of children's education for many reasons.**

**First of all, doing sports helps maintain the physical fitness of students. Movement coming from physical exertion during exercise promotes circulation of blood to all parts of the body. Thus, it helps to prevent diseases and sickness.**

**Moreover, exercise develops sportsmanship among students. When they play as a team, they are able to identify their role and worth to reach the same goal. It also helps promote their friendship and personality.**

**Therefore, I think sports courses should be mandatory in school.**

46. What do you miss most when you are away from home? (玄武湖公园、小狗、NOR)

**It is my mother whom I miss most when I am away from home, for example, study in the university which is 1400 miles away from my born city of Beijing. The dishes in school's cafeteria is awful, and I become 3 kilograms thinner than I was in the high school. So I miss the food my mother cooks for me, especially spagettis which is her signature dishes.**

47. Some people believe that we should help those in an emergency. Others think that we should first make clear of the situation, then decide whether to assist or not. What's your opinion? Please include specific details in your explanation.

**I definitely agree that one should observe before helping others when there is a dangerous situation.**

**For one thing, keep a clear mind helps you come up with better solutions to the emergency. Like, if the rescue may need more people than you alone or other tools. And you have to stop and think where to get them.**

**In addition, if you rush too quickly to the scene, you may even endanger yourself. That's definitely not helpful for anyone.**

**Last but not the least, if a person is badly injured or suffering from heart attack, your incorrect rescue may lead to his death.**

**So for these reasons, I think it will be wiser to think before you rescue people in danger.**

48. Describe a special opportunity given to you. (跳舞)

**Many years have passed, but till today, I still could not forget the special opportunity I have received. It was a rainy afternoon, when I was watching TV in my dorm room, I received a phone call. The man in the phone asking me whether I was still looking for a job? I replied yes. And he then told me that he had read my resume on the internet and could provide me a job as manager secretary in their company with a salary of 3000 yuan per month, I was really surprised by that!**

49. good leader 应有哪些 qualities?

**In my opinion, a good leader should have the following qualities: confident and kind. The leader should be confident both of himself and his fellow members. Every time he walks in the working group, he should bring a strong feeling of authority, and makes his students feel a definite sense of trust. And the leader should be kind to his fellow members. If a leader is too strict, his fellow members would be afraid to ask questions, and that will decrease the efficiency of their work.**

50. 同不同意 People should always tell the truth.

**Honesty is highly valued in Chinese culture. But I definitely disagree that people should always tell the truth, because lying is necessary sometimes.**

**One example is the white lie. People always tell white lies to prevent other's feeling from being hurt. Like husbands always say their wife is the most beautiful woman in the world to please her, even though they both know it can't be true.**

**In addition, in business or politics, people use lies or bluffs as a negotiation strategy to win more benefit for their side. Such kind of lies is also acceptable.**

**So, I hold that not telling the truth is ok and even helpful sometimes.**

51. Describe an object which is very important to you. (老人与海)

**The old man and sea**

52. Do you agree that we can judge a person by the appearance at the first glance?

**I don't think it's reliable to judge a person by the first glance, just like you can't judge a book by its cover.**

**Firstly, appearance can't represent all. The information of a person you can get from a glance is very limited. And to get a full picture of another person takes much more than a glance. There are so many information that you can't tell from people's appearance, such as the past, hobbies, eating habits and so on.**

**Furthermore, appearance may lies, it may trick you. What you can get is partial, which may even lead to prejudice. A person who dress decently and talk sincerely doesn't imply he's definitely guiltless and kindly.**

**So I support that one shouldn't judge a person just from the appearance.**

53. 如果有机会你会选择 job or career?

**English Teacher**

54. 若果有一大笔钱，你会做 practise thing or happy thing? (去美国)

**If I got a lot of money, the first thing I would like to do is to go for overseas study.**

**I have always wanted to finish my university in a different country. When I was in junior high, one of my classmates got a chance to go to the USA. At that time there were not many families who could afford their child to do that. To me, it was also a dream, and the dream has been planting in my mind until today. Therefore, I would definitely do this first if I had enough money.**

**Then, I would give the rest of my money to my parents so that they could live a better and easier life.**

**These two things above are what I really would like to do if I had a lot of money.**

55. What do you think the students should do in their vocations? Please include specific examples and details in your statement.

**Students might have many choices to spend a vacation as long as they can make the vacation time interesting or helpful.**

**For example, you can visit your families or friends, go to concerts or do many other things for relaxation. You can also plan a trip to the city or somewhere you are longing for, which will help to broaden your view and knowledge.**

**Furthermore, you can also choose to have a vacation internship, and the experience will increase your income as well as make you familiar with the society.**

**As for me, I always do volunteer work in One Foundation, one of the biggest NGO in China, which aiming at helping children out of school.**

**So there is never lack of choices.**

56.描述一件童年很 happy 的 event, 然后 explain why it is memorable (小狗)

**Teddy bear**

57. Communicate with your family and friends by letter and e-mail or by telephone?

**I usually communicate with family or friends by telephone.**

**Firstly of all, there is nothing better than receiving a call from my family or friends when I am far away from home. I feel more close to my family or friends by directly talking to them. Hearing their voices gives me a sense of intimacy.**

**Furthermore, it's more efficient to communicate by telephone. I can directly describe my life and receive information about my family or friends in just several minutes, while transferring information by letter or e-mail cost time and energy.**

**So I'd like to choose telephone.**

58. Favorite time of a year(春节)

**My favorite time of the year is the Spring Festival. It is the Chinese New Year, which is on the first day of the year in lunar calendar. Even if I am indifferent with festive events, I could not resist the charm of a family reunion dinner which marks the defining feature of the Spring Festival. During the dinner, family members**

make toasts to each other in order to wish for joy, peace, health and fortune for the next year. That's my favorite time of a year.

59. Have a relaxed and unhurried life, yes or no?

It sounds like hedonism and I don't support having a relaxed and unhurried life.

First of all, pressure engenders impetus. If you always keep living a relaxed life, you can learn nothing and even find life tedious, because you have no idea what you are living for.

Furthermore, it's impossible for one to be relaxed forever. Life is full of chances and challenges. If you are used to an invariable and easygoing life style, you'll be not able to deal with the chances or emergencies in your life.

Last but not least, our culture tends to appreciate a person who is ambitious and energetic, and they will live a happier life as well.

That's why I oppose the relaxed and unhurried life style.

60. Favorite room

My favorite room is the living room. I like lots of open space and a sense of expansiveness, of freedom.

Also, it's a place where I can look around and not feel agitated or confined. All different but natural colors have such lovely warm effect that I would never get tired of it.

Everything is in harmony----- large digital TV on the wall, glass-made tea table, beautiful plants, couch and sofa, a good book, a good wine. It gives me a sense of satisfaction and away from hurly burly.

It is at times a place to contemplate and at times a place to share with friends.

In a word, it is graceful, refined, comfortable and restful .

61. When travelling, some people prefer to reach the destination directly. Some others prefer to stop and look around the scenery along the way. What kind of way of travelling do you think is better and why?

There is a saying: life is just like a tour, we should learn to appreciate the sceneries around by our heart, then we got to the destination, there is no regret left behind.

And when travelling, I prefer to take my time and enjoy the scenery along the way.

Firstly, there can be some surprisingly beautiful sights on the way, and I don't want to miss it. It might be even better than my destination.

In addition, trip is a way of relaxation rather than doing a job. So you don't need to rush yourself, otherwise I may already feel tired when I get to my destination. I'd like to relax and enjoy the sceneries around from the moment I set out.

So, that's my reasons for sight-seeing along the way.

62. 当你去 restaurant 或 cafe 得时候最 care about 的 features 有那些

**You may be surprised to know that the feature I care most about a restaurant or café is its location. The location of it should be in a place which has several buses and subway lines. So I can get there within half an hour from any part of the city even during rush hour. In case there is no convenient public transportation or free shuttle bus which picks me up near my home, they should provide sufficient parking space at least. Then I can drive my own car there.**

63. 城市建设中应该保持 old building 呢还是应该用 new building replace old building

**I think old buildings should be protected and maintained for the following reasons.**

**First, old buildings carry a place's history, tradition, local custom and even some unique characters. They were designed to be preserved as they were in early times. They serve as a mirror to remind modern people of their past that they should be proud of.**

**Second, most old buildings are tourist attractions which interest visitors from all over the world. If they are damaged, they might go back with regret. In addition, tourism is always a big support to economy.**

**Therefore, we should try to bring the funding into the budget to do whatever is necessary.**

64. Get advice from family and friends or learning through personal experience

**I think it's more important to learn from personal experience, although advices from others are helpful and sometimes necessary.**

**First of all, when you have problems or get into a dilemma, you are the person most familiar with what you really want and it'll promote you to develop the ability to solve. Advices from others may be just the opposite with your expectation.**

**In addition, more personal experience will make one more mature and capable. You can realize the society more comprehensive and objective. It is said that a man will never grow up without enough personal experience.**

**So, as the reasons mentioned above, I'd like to learn from personal experience.**

65. Do you agree or disagree: Students should wear uniform. in school?

Although wearing school uniform is usually a reflection of neat and tidy, and can provide a unified image of the school. I tend to disagree that students need to wear uniform in school.

Firstly, wearing uniform doesn't indicate a better performance in school. I think it doesn't matter what students wear as long as they are doing fine and feeling comfortable.

In addition, schools should encourage students to express themselves and develop their personality. Schools can make some restrictions to prevent certain inappropriate clothes. But asking students to dress the same clothes everyday may have a negative influence on their mentality.

So, as the reasons mentioned above, I don't support uniform wearing.

66. 你选择 online courses 还是 traditional courses (老师上课讨论)

In my opinion, I prefer traditional courses better. In the spring of 2003, when SARS attacked our city, we students were not allowed to gather in a classroom taking lessons, on-line course is our only choice. And I found it really boring and tedious. My only teacher and partner is the cold computer without any emotions. If I do not understand the text pretty well, I have no one to ask for help. The computer could answer some typical questions, which seldom satisfied me. But on the other hand, attending traditional courses means we have teachers to interact and classmates to discuss or cooperate with. You cannot imagine how much I missed my teacher and classmates those days.

67. Subject which will lead to better job or subject which you are interested.

I will definitely choose a major which will lead to a better job in the future. I bet the most common reason for us attending university is to find a good job with bright future and decent pay when we graduate, like finance and marketing for example. I love literature, but I chose journalism to be my major in the university. Journalism is much more practical than literature. You can see this from the fact that the number of author is much less than the number of journalist. I could not deny that satisfying our interests will make our life more enjoyable, but it has to take a good job as a prerequisite because we need to live first of first. Compared to surviving, everything has to be placed in the second place.

68. 有些人觉得在大学的学习是很重要的, 有的人觉得它并不怎么重要, 你的观点?

In my opinion, the study in the university is pretty important. Take myself as an example. I used to be a student of journalism in the university. I learned how to interview, how to edit, how to write briefs, comments and reviews. And then I went to the China Economic Daily to work as an intern during my third year. I found what

**I had learnt in the university was really useful, though not practical but it is the basis to handle with the real journalism. On the second thought, the certification of university is a proof of your learning ability for many employers. It is an essential competitiveness when you seek for jobs.**

69. Describe a letter or poem or ...that is important to you

**Letter, teddy bear.**

70. Which place do you like to live, the forest, desert, or plain? Use specific reason to explain your opinion.

**I prefer to live near the forest best among the three.**

71. 说说你向别人要求帮助的经历，别人是怎样帮助你的

**I once had a tough experience last semester when I was invited to show my dance with my friends in a large-scale celebration evening. It was challenging because we had only less than two weeks for preparation. Even worse, it was the end of the term and we were all busy with our final exams.**

**I told my dilemma to one of my friends who is also good at dancing and has relatively more spare time. He asked me not to be gloomy and promised to investigate the dancing actions instead of me. He learned new dancing actions during the daytime and taught me every night. It did save me a lot of time and I successfully accomplished both the performance and exams.**

**Finally, we had achieved a fantastic performance. And without this friend's help, I couldn't done it well.**

71.

72. 赚钱的工作还是 personal satisfaction 高的工作

**I will definitely choose a major which will lead to a better job in the future. I bet the most common reason for us attending university is to find a good job with bright future and decent pay when we graduate, like finance and marketing for example. I love literature, but I chose journalism to be my major in the university. Journalism is much more practical than literature. You can see this from the fact that the number of author is much less than the number of journalist. I could not deny that satisfying our interests will make our life more enjoyable, but it has to take a good job as a prerequisite because we need to life first of first. Compared to surviving, everything has to be placed in the second place.**

73. 学生在工作之前应该做 part-time job 或者 summer intern 来确定自己是否合适那份工作，同意否？

**As far as I'm concerned, I think a gap year is a good idea for college students.**

**Going away instead of directly going to university would provide them with a different and great experience. They would have the opportunity to see different things and know more about life.**

**Taking a break from study is not only beneficial for their body, but also for their mind. It's like self-refreshment. After the break, they would be eager to return to college with a fresher outlook and clearer mind.**

**Sometimes they may think more, connect their real world experience to their schoolwork and thus improve their efficiency. Somehow, students who take one year off either to work or to see the world, always wind up going back to school with more incentives to get more out of their education.**

**So I think of taking one year off as a way of rejuvenating oneself.**

74. 最想学的一个技能(在家里吃)

**The skill I want to learn most is cooking.**

**My mom is good at cooking but she seldom cooks at home because her work is very busy. She has business travel nearly once a week. When she is absent, my dad take the responsibility of cooking. The food he cooks is horrible. Haha!**

**Every time he cooks, I will loose some weight. But you know I am already slim.**

**So I want to cook for myself. And they say that cooking makes woman more attractive. You know I am still single.**

75. 是否同意学生进入大学前有一个 one-year 的 break

**In my opinion, every student should do a part-time job or apply for a summer intern before graduate. During the intern, we can learn a lot of things much more practical than what we learn in school. For example, a student of finance will put in many effort in math while studying in school, but during the intern he/she will find the math formulas could do little help. Besides, we can check if we are really fit for the job we dreamed. Take me for instance, I dreamed to be a salesgirl in the supermarket when I was still a child. But when I really worker as a salesgirl as my summer intern I found the work was tedious and tired.**

76. some good news and why(被录用为老师)

**I'll tell you a good news of myself. You know what? I have just received an offer which tells me that I was accepted to be an editor in Xinhua news Agency, which is the most important news agency in China. Every one of my classmates admires me because I am the only one who receives this offer. I dreamed to be a journalist when I was still in middle school and thus I chose journalism as my major in the university. When I graduate from the university, I found it very difficult for a female undergraduate to be a journalist in China, but I proved myself in the end, and got this offer.**

77. 新生是和其它年级混住还是单独一个楼

**I tend to agree that freshmen live with other grades, because it helps them fit in more quickly.**

**For one thing, it creates more opportunities for the freshmen to make friends with their seniors and gain more knowledge about college life, like information of some professors, school policies, or resources in surrounding area.**

**In addition, it's also important for the new students to find an example to follow, and these examples are often from the higher grade students. Living with them helps one to know the model student better.**

**So for these reasons, I think it's beneficial for the freshmen to live with other grades.**

78. 同意或不同意 students will learn more when they have discussions

**I will definitely agree to the statement that students will learn more when they have discussion. Take me as an example, I still remember clearly the spring of 2003 when SARS attacked our city, we students were not allowed to study in the classroom together, and has to go home learn separately by on-line courses. So I have no partners to discuss with, and I got the lowest average GPA that semester. I think that's all because I do not understand pretty well without discussion with my teacher or classmates.**

79. Do you agree or disagree: " The most important lesson can't be learned in class. "

**I agree to the statement that the most important lesson cannot be learned in class. The lesson we have learn on class is some basic knowledge. What we learn in the society is much more practical and important as well. For example, you will never learn how to deal with the relationship among co-workers in classroom, but it is crucial to manage this kind of relationship if you want to survive in the fierce competition in a company. And this kind of skill could only be taught in the society.**

80. Should the university education be free?
